Independent Auditor's Report

To the Directors and Policyholders of
Lambton Mutual Insurance Company

Opinion

We have audited the financial statements of Lambton Mutual Insurance Company (the Entity), which comprise the statement of financial position as at December 31, 2021, and the statements of comprehensive income, policyholders' surplus and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Lambton Mutual Insurance Company as at December 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information, other than the financial statements and our auditor's report thereon, in the Annual Newsletter for our Policyholders.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained the Annual Newsletter for our Policyholders prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

1. Corporate Information

Lambton Mutual Insurance Company (the Company) is incorporated under the laws of Ontario, Canada and is subject to the Ontario Insurance Act. It is licensed to write property, liability, automobile, farmers' accident and aviation insurance (limited to unmanned air vehicles for use in farming) and commercial activities in Ontario. The Company's head office is located at 7873 Confederation Line, Watford, Ontario.

The Company is subject to rate regulation on the automobile business that it writes. Before automobile insurance rates can be changed, a rate filing is prepared as a combined filing for most Ontario Farm Mutuals. The rate filing must include actuarial justification for rate increases or decreases. All rate filings are approved or denied by the Financial Services Regulatory Authority of Ontario. Rate regulation may affect the automobile revenues that are earned by the Company. The actual impact of rate regulation would depend on the competitive environment at the time.

These financial statements have been authorized for issue by the Board of Directors on January 25, 2022.

2. Basis of presentation

(a) Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (the IASB).

(b) Basis of Measurement

These financial statements were prepared under the historical cost convention, except for the financial assets classified as fair value through profit or loss ("FVTPL").

The financial statements are presented in Canadian Dollars ("CDN"), which is also the Company's functional currency.

(c) Judgment and Estimates

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving critical judgments and estimates in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are:

- The calculation of unpaid claims, including the determination of the initial claim liability, discount rates, the estimate of time until ultimate settlement and the performance of a liability adequacy test (Note 3);
- The determination of the recoverability of deferred policy acquisition expenses (Note 3); and
- The classification of financial assets at FVTPL, which includes assessing the business model within which the assets are held and whether the contractual terms of the assets are solely payments of principal and interest on the principal amount outstanding (Note 4).

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

2. Basis of presentation (continued)

In addition, in preparing the financial statements, the notes to the financial statements were ordered so that the most relevant information was presented earlier in the notes and the disclosures that were deemed to be immaterial were excluded from the notes to the financial statements. The determination of the relevance and materiality of disclosures involved significant judgment.

3. Insurance contracts

In accordance with IFRS 4, Insurance Contracts, the Company has continued to apply the accounting policies it applied in accordance with pre-changeover Canadian generally accepted accounting principles.

Balances arising from insurance contracts primarily include unearned premiums, provisions for unpaid claims, the Reinsurers' share of provisions for unpaid claims and deferred policy acquisition expenses.

(a) Premiums and unearned premiums

Premiums written comprise the premiums on contracts incepting in the financial year. Premiums written are stated gross of commissions payable to agents and exclusive of taxes levied on premiums.

The Company recognizes premium income evenly over the term of the insurance policy using the pro rata method. The portion of the premium related to the unexpired portion of the policy at the end of the fiscal year is reflected in unearned premiums (UEP). Changes in unearned premiums recorded in the statement of financial position for the years-ended December 31, 2021 and 2020 and their impact on net premiums earned for the two years follow:

	2021	2020
Balance, beginning of the year	\$13,728,326	\$ 12,414,219
Premiums written	29,733,319	27,654,815
Premiums earned during year	(28,586,815)	(26,340,708)
Changes in UEP recognized in income	1,146,504	1,314,107
Balance, end of the year	\$14,874,830	\$ 13,728,326

Pricing of property and liability policies are based on assumptions in regard to trends and past experience, in an attempt to correctly match policy revenue with exposed risk. Automobile premiums are subject to approval by the Financial Services Regulatory Authority of Ontario and therefore may result in a delay in adjusting the pricing to exposed risk.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

3. Insurance contracts (continued)

The Company is exposed to a pricing risk to the extent that unearned premiums are insufficient to meet the related future policy costs. Evaluations are performed regularly to estimate future claims costs, related expenses, and expected profit in relation to unearned premiums. There was no premium deficiency at December 31, 2021 and 2020.

Amounts due from agents, brokers and policyholders are measured at amortized cost less any impairment losses. These amounts are short-term in nature consisting of a large number of policyholders, and are not subject to material credit risk. Regular review of amounts outstanding is performed to ensure credit worthiness.

(b) Deferred policy acquisition expenses

Acquisition costs are comprised of agent and broker commissions. These costs are deferred and amortized over the terms of the related policies to the extent that they are considered to be recoverable from unearned premiums, after considering the related anticipated claims and expenses. Changes in deferred policy acquisition expenses recorded in the statement of financial position for the years-ended December 31, 2021 and 2020 and their impact on commissions and other acquisition expenses for the two years follow:

	2021	2020
Balance, beginning of the year	\$ 2,261,005	\$ 2,036,209
Acquisition costs incurred	5,062,951	4,663,882
Expensed during the year	(4,851,625)	(4,439,086)
Balance, end of the year	\$ 2,472,331	\$ 2,261,005

(c) Unpaid claims and adjustment expenses

Individual loss estimates are provided on each claim reported. In addition, provisions are made for adjustment expenses, claims development, changes in reported claims and for claims incurred but not reported, based on past experience and business in force. The estimates are regularly reviewed and updated, and any resulting adjustments are included in current income.

Claim liabilities are carried on an undiscounted basis.

In relation to COVID-19, the Company applied judgment and actuarial standards to determine its unpaid claims, using different scenarios and assumptions based on the information currently available.

Lambton Mutual Insurance Company
Notes to Financial Statement
December 31, 2021

3. Insurance contracts (continued)

A summary of the Company's outstanding gross unpaid claims liabilities, related reinsurers' share of unpaid claims and the net insurance liabilities follow:

	December 31, 2021			December 31, 2020		
	Gross	Re- insurance	Net	Gross	Re- insurance	Net
Outstanding claims provision						
Long term	\$11,892,689	\$ 1,270,259	\$10,622,430	\$ 14,059,671	\$ 2,449,986	\$ 11,609,685
Short term	5,893,639	1,814,657	4,078,982	4,416,890	1,340,216	3,076,674
Facility Association and other residual pools	428,606	-	428,606	409,164	-	409,164
	18,214,934	3,084,916	15,130,018	18,885,725	3,790,202	15,095,523
Provision for claims incurred but not reported	5,664,331	1,742,000	3,922,331	5,908,516	2,632,085	3,276,431
	\$23,879,265	\$ 4,826,916	\$19,052,349	\$ 24,794,241	\$ 6,422,287	\$ 18,371,954

The ultimate cost of long settlement general liability claims are difficult to predict for several reasons. Claims may not be reported until many years after a policy expires. Changes in the legal environment can create further complications. Court decisions and federal and provincial legislation may dramatically increase the liability between the time a policy is written and associated claims are ultimately resolved. For example, liability for exposure to toxic substances and environmental impairment, which did not appear likely or even exist when the policies were written, has been imposed by legislators and judicial interpretation. Tort liability has been expanded by some jurisdictions to cover defective workmanship. Provisions for such difficult-to-estimate liabilities are established by examining the facts of tendered claims and adjusted in the aggregate for ultimate loss expectations based upon historical experience patterns and current socioeconomic trends.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

3. Insurance contracts (continued)

The Company must participate in industry automobile residual pools of business, and recognizes a share of this business based on its automobile market share. The Company records its share of the assets, liabilities, revenue and expenses provided by the actuaries of the pools.

Changes in claim liabilities recorded in the statement of financial position for the years-ended December 31, 2021 and 2020 and their impact on claims and adjustment expenses for the two years follow:

	2021	2020
Unpaid claim liabilities - beginning of year - net of reinsurance	\$18,371,954	\$ 16,595,032
Decrease in estimated losses and expenses, for losses occurring in prior years	(2,386,731)	(2,524,393)
Provision for losses and expenses on claims occurring in the current year	17,645,017	17,311,325
Payment on claims:		
Current year	(9,209,976)	(9,726,906)
Prior years	(5,367,915)	(3,283,104)
Unpaid claims - end of year - net	19,052,349	18,371,954
Reinsurers' share of provision for unpaid claims	4,826,916	6,422,287
Provision for unpaid claims, end of year	\$23,879,265	\$ 24,794,241

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

3. Insurance contracts (continued)

Claim development

The principal risk the Company faces under insurance contracts is that the actual claims and benefit payments or the timing thereof, differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the Company is to ensure that sufficient reserves are available to cover these liabilities.

The Company writes insurance primarily over a twelve month duration. The most significant risks arise through high severity, low frequency events such as natural disasters or catastrophes. A concentration of risk may arise from insurance contracts issued in a specific geographic location since all insurance contracts are written in Ontario.

The above risk exposure is mitigated by diversification across a large portfolio of insurance. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements.

The estimation of claim development involves assessing the future behaviour of claims, review of previous legal settlements, the amount of information available, the characteristics of the line of business from which the claim arises and historical delays in reporting claims. In general, the longer the term required for the settlement of a group of claims the more variable the estimates. Short settlement term claims are those which are expected to be substantially paid within a year of being reported.

The tables that follow show how the Company's estimate of cumulative incurred claim cost for each accident year has changed at successive year ends and reconcile the cumulative claims to the amount appearing in the statement of financial position. An accident-year basis is considered to be the most appropriate for the business written by the Company.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

3. Insurance contracts (continued)

The risks associated with insurance contracts are complex and subject to a number of variables which complicate quantitative sensitivity analysis. The Company uses various techniques based on past claims development experience to quantify these sensitivities. This includes indicators such as average claim cost, amount of claims frequency, expected loss ratios and claims development.

Results of sensitivity testing based on expected loss ratios are as follows, showing gross and net of reinsurance and the impact on pre-tax income:

	Property claims		Auto claims		Liability claims	
	2021	2020	2021	2020	2021	2020

5% increase in loss ratios would result in the following increase:

Gross	\$ 677,581	\$ 602,617	\$ 640,621	\$ 612,269	\$ 111,139	\$ 102,150
Net	\$ 556,283	\$ 503,905	\$ 571,542	\$ 539,568	\$ 86,854	\$ 82,232

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

(d) Liability adequacy test

At each reporting date the Company performs a liability adequacy test on its insurance liabilities less deferred policy acquisition expenses to ensure the carrying value is adequate, using current estimates of future cash flows, taking into account the relevant investment return. If that assessment shows that the carrying amount of the liabilities is inadequate, any deficiency is recognized as an expense to comprehensive income initially by writing down the deferred policy acquisition expense and subsequently by recognizing an additional claims liability for claims provisions.

(e) Reinsurers' share of provision for unpaid claims

The Company enters into reinsurance contracts in the normal course of business in order to limit potential losses arising from certain exposures. Retention limits for the excess-of-loss reinsurance are set by product line. Reinsurance premiums are accounted for in the same period as the related premiums for the direct insurance business being reinsured. Reinsurance liabilities, comprised of premiums payable for the purchase of reinsurance contracts, are included in accounts payable and accrued liabilities and are recognized as an expense when due.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

3. Insurance contracts (continued)

The Company follows the policy of underwriting and reinsuring contracts of insurance which, for 2021 claims, limited the liability of the Company to a maximum amount on any one property claim to \$325,000 (2020 - \$325,000). The maximum liability to the Company for each auto claim is limited to the amount of \$600,000 (2020 - \$600,000), and for each liability claim to the amount of \$550,000 (2020 - \$550,000).

Additionally the Company carries reinsurance with an upper limit of \$975,000 (2020 - \$975,000) to protect itself against certain catastrophic losses. In addition, the Company has obtained stop loss reinsurance which limits the liability of all claims in a specific year to 70% (2020 - 70%) of gross net earned premiums for all lines of business combined.

Amounts recoverable from reinsurer are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts. Although the Company has reinsurance arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to ceded insurance, to the extent that the reinsurer is unable to meet its obligations assumed under such reinsurance agreements.

Expected reinsurance recoveries on unpaid claims and adjustment expenses are recognized as assets at the same time and using principles consistent with the Company's method for establishing the related liability. Changes in due from reinsurer recorded in the statement of financial position for the years-ended December 31, 2021 and 2020 follow:

Due from reinsurers	<u>2021</u>	<u>2020</u>
Submitted to reinsurer	2,773,845	528,206
Received from reinsurer	<u>(2,773,845)</u>	<u>(528,206)</u>
Balance, end of the year	<u>\$ -</u>	<u>\$ -</u>

Reinsurance is placed with Farm Mutual Re, a Canadian registered reinsurer. Management monitors the creditworthiness of Farm Mutual Re by reviewing their annual financial statements, monitoring their A.M. Best rating and through ongoing communications. Reinsurance treaties are reviewed annually by management prior to renewal of the reinsurance contract. At year-end, the Company reviewed the amounts owing from its reinsurer and determined that no allowance is necessary.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

3. Insurance contracts (continued)

Changes in reinsurers' share of provision for unpaid claims recorded in the statement of financial position for the years-ended December 31, 2021 and 2020 and their impact on net premiums earned for the two years follow:

Reinsurers' share of provision for unpaid claims	<u>2021</u>	<u>2020</u>
Balance, beginning of the year	\$ 6,422,287	\$ 4,661,115
New claims reserve	2,059,074	1,793,796
Change in prior year's reserve	(880,600)	495,582
Submitted to reinsurer	<u>(2,773,845)</u>	<u>(528,206)</u>
Balance, end of the year	<u>\$ 4,826,916</u>	<u>\$ 6,422,287</u>

(f) Refund from premium

Under the discretion of the Board of Directors the Company may declare a refund to its policy holders based on the property premiums paid in the fiscal period. This refund is recognized as a reduction of underwriting income in the period for which it is declared.

4. Investments

(a) Recognition and initial measurement

The Company recognizes debt instruments and GICs on the date on which they are originated. Equity instruments (including investments in pooled funds) are recognized on the settlement date, which is the date that the asset is received by the Company. The instruments are initially measured at fair value.

(b) Classification and subsequent measurement

The Company classifies its GICs and bonds as FVTPL because the Company manages the debt instruments and evaluates their performance on a fair value basis in accordance with a documented investment strategy and the instruments are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

The Company's mutual funds are redeemable at the option of the holder and therefore considered debt instruments under IFRS 9 that do not give rise to cash flows that are solely payments of principal and interest and therefore are classified as FVTPL.

The Company classifies its equity instruments in listed companies as FVTPL.

The debt and equity instruments are subsequently measured at fair value where the net gains and losses, including any interest or dividend income and foreign exchange gains and losses (through investments in global pooled funds), are recognized in profit or loss.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

4. Investments (continued)

(c) Derecognition

The Company derecognizes investments when the contractual rights to the cash flows from the investment expires or the Company transfers the investment. On derecognition, the difference between the carrying amount at the date of derecognition and the consideration received is recognized in profit or loss.

(d) Risks

The following table provides fair value information of investments by type of security and issuer.

	2021	2020
GICs, maturing March 4, 2022 to November 28, 2022 with fixed interest rates of 0.9% to 1.2%	\$ 10,600,313	\$ 12,650,100

The Company is exposed to credit risk relating to its bond holdings in its investment portfolio.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

4. Investments (continued)

The Company's investment policy puts limits on the bond portfolio including portfolio composition limits, issuer type limits, bond quality limits, aggregate issuer limits, corporate sector limits and general guidelines for geographic exposure. The bond portfolio includes 100% (2020 - 100%) of bonds rated A or better. The Company's investment policy limits investment in bonds and debentures of the various ratings to limits ranging from 65% to 100% of the Company's portfolio. All fixed income portfolios are measured for performance and monitored by management on a monthly basis.

The maximum exposure to investment credit risk is the carrying value of investments.

The Company continues to monitor investments for credit ratings to ensure investments are made in bonds rated A or better.

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure credit risk.

Liquidity risk is the risk that the Company will not be able to meet all cash outflow obligations as they come due. The Company mitigates this risk by monitoring cash activities and expected outflows. The Company's current liabilities arise as claims are made. The Company does not have material liabilities that can be called unexpectedly at the demand of a lender or client. The Company has no material commitments for capital expenditures and there is no need for such expenditures in the normal course of business. Claim payments are funded by current operating cash flow including investment income.

The Company's investment policy includes holdings in cash and short-term investments to a maximum of 20%, which mitigates liquidity risk. Short-term investments include GICs with an original maturity of less than one year.

Maturity profile of bonds held is as follows:

	Within 1 year	2 to 5 years	6 to 10 years	Over 10 years	Fair value
December 31, 2021	\$ 254,590	\$ 4,840,566	\$ 6,054,317	\$ -	\$11,149,473
Percent of Total	2 %	44 %	54 %	- %	
December 31, 2020	\$ -	\$ 4,397,292	\$ 6,629,234	\$ -	\$11,026,526
Percent of Total	- %	40 %	60 %	- %	

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure liquidity risk.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

4. Investments (continued)

Market factors that will impact the fair value of investments include three types of risk: currency risk, interest rate risk and equity risk.

The Company's investment policy operates within the guidelines of the Insurance Act. An investment policy is in place and its application is monitored by the Board of Directors. Diversification techniques are utilized to minimize risk. At December 31, 2021, a 10% movement in the stock markets with all other variables held constant would have an estimated effect on the fair values of the Company's Canadian common equities of \$1,174,546 (2020 - \$738,026) and the equity pooled funds of \$738,981 (2020 - \$461,395). This change would be recognized in comprehensive income.

The Company's currency risk is related to stock holdings which are foreign equities in an effort to provide diversification to the portfolio. The Company limits its holdings in foreign equity to 8% and is currently at 2% of the total investment portfolio in accordance with its investment policy. Foreign currency changes are monitored by the Board of Directors and holdings are adjusted when offside of the investment policy.

The Company is exposed to interest rate risk through its interest bearing investments (Bonds, GICs and Fixed Income Pooled Funds).

Historical data and current information is used to profile the ultimate claims settlement pattern by class of insurance, which is then used in a broad sense to develop an investment policy and strategy. However, because a significant portion of the Company's assets relate to its capital rather than liabilities, the value of its interest rate based assets exceeds its interest rate based liabilities. As a result, generally, the Company's investment income will move with interest rates over the medium to long-term with short-term interest rate fluctuations creating unrealized gains or losses in comprehensive income.

At December 31, 2021, a 1% move in interest rates, with all other variables held constant, could impact the market value of bonds by \$578,948 (2020 - \$627,101). Also, a 1% move in interest rates, with all other variables held constant, could impact the market value of the fixed income pooled funds by \$789,591 (2020 - \$752,609). These changes would be recognized in comprehensive income.

The Company's equity investment policy limits investment in preferred and common shares to a maximum of 25% of total assets.

Equities are monitored by the Board of Directors and holdings are adjusted following each quarter to ensure the investments portfolio remains in compliance with the investment policy.

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure market risk.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

4. Investments (continued)

(e) Fair value measurement

The following table provides an analysis of investments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1	Level 2	Level 3	Total
December 31, 2021				
GICs	\$10,600,313	\$ -	\$ -	\$10,600,313

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

4. Investments (continued)

Transfers between levels are considered to have occurred at the date of the circumstances that caused the transfer. There were no transfers between level 1 and 2 for the year ended December 31, 2021 and 2020. There were also no transfers in and out of level 3. The level 3 commercial mortgage pooled funds are valued based on the net asset values of the fund as provided by the investment manager of the fund. The commercial mortgages in the commercial mortgage pooled fund are valued at the present value of discounted future cash flows. The discount rate is based on the equivalent Government of Canada rate and an additional spread to compensate for a loan's particular risk.

The reconciliation of financial instruments at fair value using unobservable inputs (Level 3) is as follows:

	2021	2020
Balance, beginning of year	\$ 8,746,961	\$ 8,252,066
Net purchases and sales	296,848	356,864
Unrealized gains (losses)	(103,451)	138,031
	\$ 8,940,358	\$ 8,746,961

5. Investment and other income

	2021	2020
Interest income	\$ 1,050,654	\$ 1,241,708
Dividend income	622,547	418,477

Investment expenses	(172,031)	(144,889)
Unrealized gains on investments	1,769,033	803,404
Miscellaneous	9,700	12,618
	\$ 3,688,388	\$ 2,500,729

6. Capital management

For the purpose of capital management, the Company has defined capital as policyholders' surplus.

The Company's objectives with respect to capital management are to maintain a capital base that is structured to exceed regulatory requirements and to best utilize capital allocations.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

6. Capital management (continued)

The regulators measure the financial strength of property and casualty insurers using a minimum capital test (MCT). The regulators generally expect property and casualty companies to comply with capital adequacy requirements. This test compares a company's capital against the risk profile of the organization. The risk-based capital adequacy framework assesses the risk of assets, policy liabilities and other exposures by applying various factors. The regulator indicates that the Company should produce a minimum MCT of 150%. As at December 31, 2021, the Company has exceeded this minimum. The regulator has the authority to request more extensive reporting and can place restrictions on the Company's operations if the Company falls below this requirement as deemed necessary.

7. Commissions and other acquisition expenses

	2021	2020
Commissions and other acquisition expenses	\$ 4,851,625	\$ 4,439,086

8. Other operating and administrative expenses

	2021	2020
Computer costs	\$ 542,912	\$ 502,652
Licenses, fees and dues	182,989	144,771
Depreciation	97,522	128,558
Education, travel and meals	33,984	25,024
Office premises	72,527	79,341
Postage and office supplies	100,706	99,025
Professional fees	43,192	72,438
Salaries, benefits and directors fees	1,943,253	1,850,993
Other	364,285	297,041
	\$ 3,381,370	\$ 3,199,843

9. Salaries, benefits, commissions and directors fees

	2021	2020
Claims salaries and benefits (Note 10)	\$ 1,126,512	\$ 1,117,867
Commissions and other acquisition expenses (Note 7)	4,851,625	4,439,086
Other salaries, benefits and directors fees (Note 8)	1,943,253	1,850,993
	\$ 7,921,390	\$ 7,407,946

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

10. Gross claims and adjustment expenses

Included in claims expenses were wage costs of \$1,126,512 (2020 - \$1,117,867) and depreciation of \$50,551 (2020 - \$64,920).

11. Income taxes

Income tax expense is comprised of current and deferred tax. Current and deferred tax are recognized in net income except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

The significant components of the tax effect of the amounts recognized in other comprehensive income are composed of:

	2021	2020
Current tax provision		
Based on current year taxable income	\$ 69,982	\$ -
Deferred tax expense		
Origination and reversal of temporary differences	840,000	592,000
Total income tax expense	\$ 909,982	\$ 592,000

Reasons for the difference between current income tax expense for the year and the expected income taxes based on the statutory tax rate of 26.5% (2020 - 26.5%). are as follows:

	2021	2020
Income before income taxes	\$ 3,591,229	\$ 2,630,761
Expected taxes based on the statutory rate of 26.5% (2020 - 26.5%)	951,676	697,152
Deferred portion of claims liabilities	(858,791)	(604,304)
Other non-deductible expenses	140	155
Adjustments related to investments	(40,770)	(105,282)
Difference between amortization and CCA	17,833	13,151
Gain on sale of capital assets	(106)	(872)
Total current income tax expense	\$ 69,982	\$ -

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

11. Income taxes (continued)

	2021	2020
Deferred tax assets		
Deferred tax assets to be recovered within 12 months	\$ -	\$ -
Deferred tax assets to be recovered after more than 12 months	165,000	1,005,000
	\$ 165,000	\$ 1,005,000

At December 31, 2021, a deferred tax asset of \$165,000 (2020 - \$1,005,000) has been recorded. The utilization of this tax asset is dependent on future taxable profits in excess of profits arising from the reversal of existing taxable temporary differences. The Company believes that this asset should be recognized as it will be recovered through future rates.

12. Structured settlements, fire mutuals guarantee fund and financial guarantee contracts

The Company enters into annuity agreements with various life insurance companies to provide for fixed and recurring payments to claimants. Under such arrangements, the Company's liability to its claimants is substantially transferred, although the Company remains exposed to the credit risk if life insurers fail to fulfil their obligations.

The Company is a member of the Fire Mutuals Guarantee Fund (the "Fund"). The Fund was established to provide payment of outstanding policyholders' claims if a member company becomes bankrupt. As a result, the Company may be required to contribute assets to their proportionate share in meeting this obligation.

These exposures represent financial guarantee contracts. The Company accounts for financial guarantee contracts in accordance with IFRS 4, Insurance Contracts.

Lambton Mutual Insurance Company
Notes to Financial Statements
December 31, 2021

13. Property, plant & equipment and intangible assets

Property, plant & equipment

Property, plant & equipment is initially recorded at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment losses, with the exception of land which is not depreciated. Depreciation is taken in the year of acquisition. Depreciation is recognized in comprehensive income and is provided on a diminishing balance basis and straight line basis.

Intangible assets

Intangible assets consist of computer software which are not integral to the computer hardware owned by the Company. Computer software is initially recorded at cost and subsequently measured at cost less accumulated amortization. Computer software is amortized on a straight-line basis over its estimated useful life of 4 years. Amortization is taken in the year of acquisition. The amortization expense is included in other operating and administrative expenses and gross claims and adjustment expenses in the statement of comprehensive income.

	Useful Life	Cost	Accumulated Depreciation	Net Book Value
Computer software	4 years	\$ 945,843	\$ 874,307	\$ 71,536

14. Pension plan

The Company makes contributions on behalf of its employees to "The Retirement Annuity Plan for Employees of the Ontario Mutual Insurance Association and Member Companies". This pension plan is being accounted for as a multi-employer pension plan as defined by IAS 19 Employee Benefits. Each member company has signed an Ontario Mutual Insurance Association Pension Plan Agreement. Eligible employees participate in the defined benefit plan. The defined benefit plan specifies the amount of the retirement benefit to be received by the employee based on the number of years the employee has contributed and his/her final average earnings. The plan is accounted for as a defined contribution plan as insufficient information is available to account for the plan as a defined benefit plan. The Company is one of a number of employers that participates in the plans and the financial information provided to the Company on the basis of the contractual agreements is insufficient to reliably measure the Company's proportionate share in the plan assets and liabilities on defined benefit accounting requirements.

The Company matches the employee contributions and funds the excess defined benefit based on the Company's percentage of pensionable earnings as calculated by the Pension Plan actuaries. The Pension Plan agreement states that the Company is responsible for its share of any deficit as a result of any actuarial valuation or cost certificate. The minimum funding requirement is the solvency valuation amount determined by the Pension Plan actuary on the valuation dates prescribed by the Pension Benefit Act. In the event of a wind-up, voluntary withdrawal or bankruptcy, either by the Company or the group as a whole, the Company is responsible for its portion of all expenses and deficit related to such. According to the most recent actuarial valuation dated January 1, 2022, the going concern valuation of the defined benefit plan shows a surplus. The next pension valuation is scheduled for January 1, 2023.

14. Pension plan (continued)

The defined benefit plan has been closed to future eligible employees effective September 1, 2013. The Company and all current employees who are accruing benefits under the defined benefit plan continue to contribute to the defined benefit plan according to the existing terms of the agreement. Future eligible employees will be enrolled in the defined contribution plan. The Company's obligation with respect to this plan is to make specified monthly contributions based on a percentage of the employee's eligible earnings.

The amount contributed to the plans for 2021 was \$183,679 (2020 - \$242,911). The contributions were made for current service and these have been recognized in comprehensive income. Additional lump sum payments for 2021 were \$50,665 (2020 - \$nil).

The Company had a 4.08% (2020 - 3.93%) share of the total contributions to the defined benefit plan in 2021.

The expected contributions to the plans by the Company for 2022 are \$208,409.

Due to the complexity of the valuation and its long-term nature, the funding valuation is highly sensitive to changes in the assumptions which are reviewed at each reporting date. The COVID-19 crisis has created additional uncertainty which could impact assumptions going forward. This uncertainty could create volatility in the funding status of the plan.

15. Related party transactions

The Company entered into the following transactions with key management personnel, which are defined by IAS 24, Related Party Disclosures, as those persons having authority and responsibility for planning, directing and controlling the activities of the Company, including directors and management:

	2021	2020
Compensation		
Salaries, short term employee benefits and director's fees	\$ 690,384	\$ 666,128
Pension	67,846	68,563
	\$ 758,230	\$ 734,691
Premiums	\$ 94,035	\$ 93,278
Claims paid	\$ 22,651	\$ 29,883

Amounts owing to key management personnel at December 31, 2021 are \$10,579 (2020 - \$nil).

16. Standards, amendments and interpretations not yet effective

Certain new standards, amendments to standards, and interpretations were issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting years beginning after January 1, 2021 or later that the Company has decided not to adopt early.

Of those new standards, interpretations and amendments that are not yet effective, IFRS 17 *Insurance Contracts* is expected to have a material impact on the Company's financial statements in the period of initial application.

- *IFRS 17 Insurance Contracts* supersedes IFRS 4 Insurance Contracts. IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts. IFRS 17 requires entities to measure insurance contract liabilities using updated estimates and assumptions that reflect the timing of cash flows and any uncertainty relating to insurance contracts. Additionally, IFRS 17 requires entities to recognize profits as it delivers insurance services. The effective date for IFRS 17 is January 1, 2023. The Company has not yet determined the impact of adoption, however it is expected to significantly impact the overall Financial Statements.
- *Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2* provides guidance and examples to assist entities apply materiality judgements to accounting policy disclosures. The amendments to IAS 1 aim to help entities improve the usefulness of its accounting policy disclosures by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies. The amendments to IFRS Practice Statement 2 provide guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The effective date for the amendments to IAS 1 is January 1, 2023 with earlier application permitted. The Company is currently assessing the impact of the amendments to determine the impact they will have on the Company's accounting policy disclosures.
